AZIOT operation principle

The synaptic chain of AZIOT system basic units is built as follows:

Use of AZIOT platform to increase sales in construction field

AZIOT platform is a private solution of situation centre that will provide the owners, top-managers of construction companies, sales departments and managing companies with opportunity to get special intellectual and innovative tool for decision-making support on all stages of construction project.

Main stages of construction project

SCALING

Efficiency control of real estate use - special monitoring and analysis tools for owners, investors and managing companies that own real estate in different regions of Kyiv, Ukraine and the world.

OBJECT OPERATION

Various options of AZIOT smart house package – meters reading, payment through app, sensors and modules units – safety, comfort, economy, advanced monitoring; additional services in mobile app – delivery, call, remote office; special software for managing companies and housing offices

SALES

Monitoring of construction of my apartment, environmental monitoring, customers database, face recognition, segmented impact on potential customers, sales department efficiency control (CCTV cameras, air and soil pollution sensors, smart glasses, business analytics, dashboard);

CONSTRUCTION

Construction control – CCTV cameras, number-plate and face recognition, volume recording etc.

Integration of AZIOT platform
will increase sales of your square meters thanks to:

- ❑ Increase of marketing attraction
- ❑ Resources saving
- ❑ Processes automation

AZIOT – innovative, available, promising

and simply beautiful!

AZIOT smart house system

Economy

- Consulting
- HUB
- Multisensor (temperature, humidity, CO2)
- Smart socket
- Door open/close sensor
- Software
- Assembly and commissioning works

12 999

Comfort

Economy +

- Flood protection system
- Operating mode control sensor
- Motion sensor
- Air conditioner control module
- Harmful gases sensor
- Smoke and fire detector
- Alarm button

19 499

Premium

Comfort +

- Electricity and water meter reading
- Services order and payment option
- Wi-Fi router
- Camera
- Temperature controller (2)
- Electricity sensor
- Gas detector

26 999

There are Lux, Developer and Shopping Mall packages provided. Their price is set on an individual basis
AZIOT system supports the use of wire and wireless technologies
